N&N Heating and Cooling was founded with a clear mission: to help Northern Westchester homeowners transition from expensive, inefficient oil and gas heating to state-of-the-art heat pump systems. As Mitsubishi Diamond Elite Contractors, we bring both expertise and innovation to every project, whether it's a complete system conversion or routine maintenance. What sets us apart is our hands-on, owner-operator approach. When you work with N&N, you're working directly with the owners who will see your project through from initial design to final installation. We believe this level of personal involvement is crucial for delivering the exceptional results our clients deserve.
