

SmartCharge New York

Earn rewards for charging your electric vehicle at off-peak times, and get access to driving efficiency, carbon footprint data and more when you sign up for SmartCharge Rewards.

Charging off-peak helps reduce stress on the electric grid, making service more reliable for everyone.

How does it work?

You'll get a **free** cellular-enabled **C2** connected car device that collects your driving and charging data by plugging into your vehicle's on-board diagnostics port or connector and through an interactive digital platform, tracks your driving efficiency, battery health, carbon footprint and more. You can also share your stats and experiences with other electric vehicle drivers to see how you compare.

Am I eligible?

If you own or lease a plug-in electric vehicle and charge it in New York City or Westchester, you can check our website to see if you are eligible.

What do I get?

- Earn \$50 in SmartCharge Rewards just for installing and activating your free C2.
- Earn \$5 every month for charging within the Con Edison service territory.
- Earn \$20 a month bonus for avoided Summer peak charging (Summer peak defined as 2pm - 6pm weekdays, June 1 - September 30).
- Earn 5 cents per kilowatt hour for off-peak charging (Off-peak defined as 12 midnight - 8am all days, year-round).
- Learn how to earn rewards for charging.
