

**Solar. Simple. Together.**

## Solarize Rye Brook

***Thank you for your interest in Solarize Rye Brook. This program is now CLOSED.***

Solarize Rye Brook is a unique program that uses a tiered-pricing structure, town-supported education and outreach and one competitively selected installer to offer quality solar electric systems to homeowners and commercial property owners. The more residents sign up for Solarize, the more the cost comes down.

Thanks to Solarize Rye Brook, 20 more homes in the two villages will be generating their own solar power in coming months. These 20 homes represent over 160 kW of solar power capacity and will produce clean, renewable energy, significantly reducing the homeowners' electric bills and reducing demand from the electric grid. More than 200 homeowners requested information about the opportunity to install solar, and installers conducted more than 80 site visits to evaluate homes' solar potential.

Congratulations, Rye Brook!

**“The Village of Rye Brook is excited to partner with the Solarize Westchester team to promote solar energy in our community. As a resident with solar on my own home, I cannot wait to share the financial and environmental benefits of solar energy with my neighbors in Rye Brook.” – Mayor Paul S. Rosenberg, Village of Rye Brook**

## Upcoming Events

***Thank you for your interest in Solarize Rye Brook. This program is now CLOSED.***

## How Solarize Works

1. Schedule a no obligation site visit to see if your home is right for solar.
2. Get your discounted solar installation price quote.
3. Sign a contract to have your new solar panels installed.
4. Save on your monthly electric bill for years to come.
