

Sustainable Westchester, Inc Whistle Blower Policy

Sustainable Westchester, Inc. expects its directors, officers and employees to observe high standards of non-profit, business and personal ethics in the conduct of their duties and responsibilities. It is the responsibility of all directors, officers and employees to comply with these high standards and to report violations or suspected violations. In most cases, an employee's supervisor is in the best position to address an area of concern. However, if you are uncomfortable speaking with a supervisor, you are encouraged to speak with President or Executive Director, Governance Committee or Board Chair. A log will be kept of all complaints and their resolution. The audit committee of the board of directors shall periodically receive reports of complaints regarding corporate accounting practices, internal controls or auditing.
