

Solar. Simple. Together.

Solarize Pelham

Solarize Pelham is now **closed**.

Thanks to Solarize Pelham, 41 homes in the Town and Village of Pelham will be generating their own solar power in the coming months—and some already are! Solarize Pelham, which launched in March 2018, is a community program created to encourage the growth and adoption of solar power by lowering the cost and simplifying the process.

These 41 homes will produce a combined 300 kW of clean, renewable energy, significantly reducing the homeowners' electric bills and reducing demand from the electric grid. Solarize keeps solar affordable by using group-discounted pricing, which increases the savings for community members. Over 200 homeowners requested information about the opportunity to install solar during the campaign, although many were unable to take advantage of the opportunity due to factors such as heavy shade, roof orientation, roof condition, etc. The solar workshops conducted throughout the program helped to broaden community awareness of the benefits of solar energy.

Congratulations to the hard-working volunteers on the Solarize Pelham team for their great work in getting the word out! See photos below for some of the community events that were held.

Solarize Pelham!

How Solarize Works

1. Schedule a no obligation site visit to see if your home is right for solar.
2. Get your discounted solar installation price quote.
3. Sign a contract to have your new solar panels installed.
4. Save on your monthly electric bill for years to come.

How You Can Help

If you'd like to volunteer to help Solarize Pelham, email SolarizePelham@gmail.com.

IN THE NEWS

"Solarize Pelham Workshop Held on March 28th, Additional Workshops Planned on April 26th and May 5th," The Pelhams PLUS ([link](#))

Village of Pelham municipal video of Solarize Pelham March 15 launch event can be viewed [here](#)

“The Village of Pelham is excited to partner with the Solarize Westchester team to promote solar energy in our community. With electric rates rising so much, it would be prudent to consider investing in a solar system for your home or business in Westchester County.” —Michael J. Volpe, Mayor, Village of Pelham

“The Town of Pelham is pleased to be able to provide an avenue for homeowners and businesses in Pelham to explore solar energy at a reasonable cost for their properties. This solar energy project will enable us to reduce energy costs and our dependence on fossil fuel and our carbon footprint.” —Peter DiPaola, Supervisor, Town of Pelham

What your neighbors are saying about having solar:

“I’m truly grateful that I no longer cry when the ConEd bill comes monthly. In this uncertain moment in history I am thankful that I can do something which will impact, positively, our environment.”—Audrey Beerman, Pelham solar homeowner

“We installed solar on our home in 2015 and love it! It lowered our monthly costs and we generate 100% of our electricity need using a renewable resource.” – Ariel Spira-Cohen and Victor

Birutti

Solarize Pelham Workshop Draws Huge Crowds

A recent Solarize Pelham Workshop held at the Town of Pelham Public Library had a very successful turnout. Stephan Hartmann of Ross Solar, the Solarize Pelham installer, explained the concepts of solar to an attentive crowd.

Solarize Pelham will hold a Solar Open House Tour on May 30 from 1 to 3pm. Solar homeowners and the Solarize Pelham team will be on hand to answer your questions about going solar. Locations include: 98t Split Rock Road and 525 Wynnewood Road. The Solarize Program is open to anyone who

lives or works in the Town of Pelham, for residential and commercial properties within the service area. The resident program ends June 4th. The Solarize Pelham campaign is supported by the Town and Village of Pelham, and by the Environmental Coalition of the Pelhams (EcoPel). Solarize Pelham is supported by Westchester County, Solarize Westchester, Sustainable Westchester, and by the New York State Energy Research and Development Authority (NYSERDA). Visit SolarizeWestchester.com/Pelham for more information.
